Nova Filtration sorbent medias offer users a strong, maximum absorbent for cleaning up all petroleum-based spills. Our oil absorbent sheets, rolls and tubes are proven to absorb many liquids and repel water, making them an effective tool for all industrial, environmental and marine applications. They are used for applications such as absorbing spills, leaks or drips and can be used during emergency spills for fast, easy clean-up. We manufacture our sorbents in a variety of types and sizes just right for your application.

**Building a Part Number**

| OIL SORBENTS      | STYLE                   | SIZE W x L    | PACKAGE QUANTITY | PART NUMBER     |
|-------------------|-------------------------|---------------|------------------|-----------------|
| <b>OS</b>         | <b>S = Sheets</b>       | 12" x 12"     | 100              | <b>OSS1212</b>  |
|                   |                         | 16" x 18"     |                  | <b>OSS1618</b>  |
|                   |                         | 24" x 24"     |                  | <b>OSS2424</b>  |
|                   | <b>R = Rolls</b>        | 12" x 150"    | 2                | <b>OSR12150</b> |
